

Stainless International Ltd: REACH Statement

REACH : Regulation, Evaluation, Authorisation and Restriction of Chemicals:

The stainless steel materials supplied by Stainless International Ltd in the form of Coils, Sheets, Plates and Long Products are either rolled or drawn. These fall outside the present scope of the REACH legislation as we understand it.

The elements within the steel are in a solid solution state, and the properties of the product have not had their properties altered by any processing.

Andrew Holland, Managing Director
Stainless International Ltd.
